JOB DESCRIPTION

JOB TITLE: Welder/Fabricator
DEPT: Fabrication
REPORTS TO: Fabrication Manager

SUMMARY:

Geoprobe®/DRILLMAX® is seeking an experienced welder/fabricator that is goal oriented, driven to excel, naturally focused on opportunities and solutions, and has a passion for welding and fabrication.

RESPONSIBILITIES

- Safely fabricate and assemble metal structures and equipment using MIG welder (TIG welding experience is a bonus), band saw, shear, metal punch, and measuring tools
- Set-up, operate, and maintain welding equipment utilizing company and personal safety measures.
- Ability to determine the structurally appropriate size & length of weld necessary when documentation does not specify
- Read and accurately interpret blueprints to determine operations, required materials and timeframes for projects
- Provide finished quality required (both with and without fixturing) in a reasonable time
- Other responsibilities as assigned by supervisor.

REQUIREMENTS

- High school degree required
- Basic computer skills are necessary including accuracy in inventory transactions
- Able to lift up to 50 lbs.
- Ability to be flexible and adaptable to a variety of tasks
- Able to work alone or within a team to contribute to a positive working environment
- Must demonstrate the ability to follow procedures/instructions with success
- Enjoy working with his/her hands and take pride in providing high quality workmanship

BONUS

- AWS (or equivalent) certification
- CNC equipment i.e. Plasma or Laser
- Program/operate Robotic welding equipment
